

Al Murjan Hospital Development Plan

Jeddah, Saudi Arabia

Scale:

Site area: 2.7 hectares

Phase I: 250 beds

Development Gross Area: 30,250 m²

Phase II: 150-bed expansion and Future Development Site

Client:

Al Murjan Real Estate

Design Team:

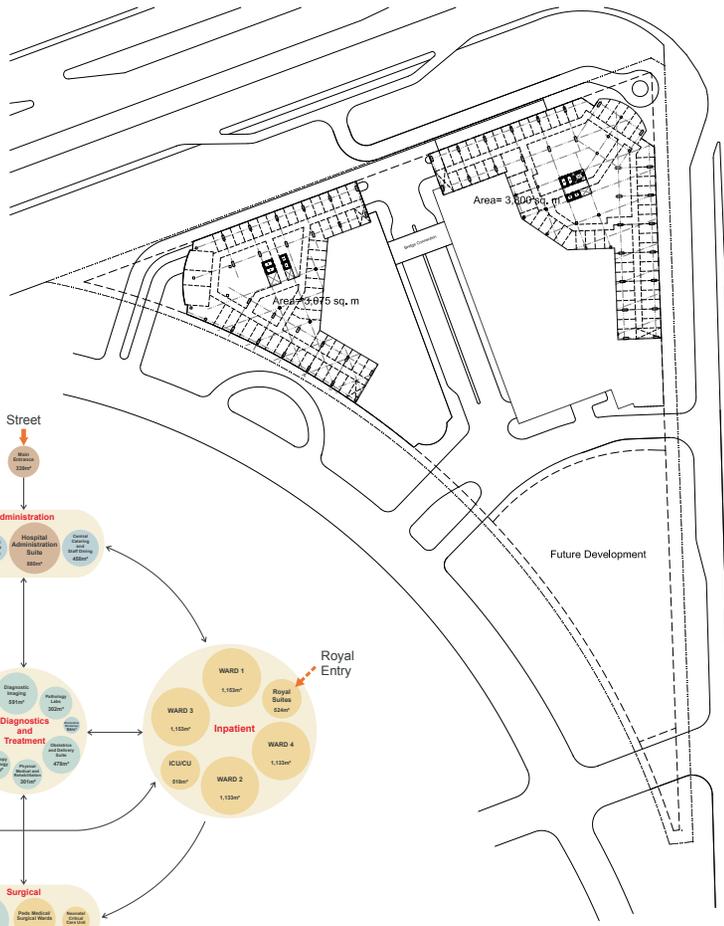

Arabtech Jarfdaneh

HDP (overseas) Ltd.

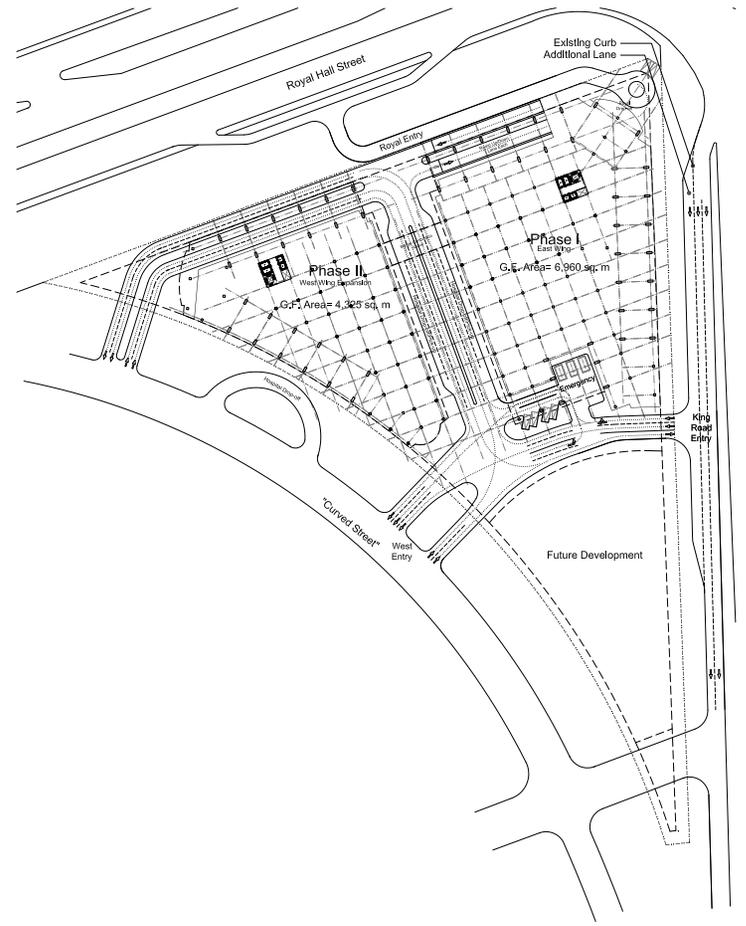

Phase I of the Site Development Plan for this premier corner site in Jeddah is the Concept Design for a 30,000 square meter, 250-bed general hospital. Its extensive ground level provides for all the required arrival and pick-up requirements, including outpatients, emergencies, service, and private access for VIPs. Above that are 5 floors of wards with mechanical services on the roof, and below are two levels of subterranean parking that provide the required 450 spaces.

Phase II includes a 150-bed expansion that connects to Phase I via an upper level bridge, with its parking is accessed via Phase I ramps; and a third site that is reserved for use as either a medical office building, or for serviced apartments.
